

Community Planning Process to Update Plans for Arlandria and Del Ray

December 12, 2019

Upcoming projects nearby:

- North Potomac Yard Metrorail Station
- Amazon in Crystal City
- Virginia Tech Innovation Campus in North Potomac Yard

Together, let's create a vision for the future of the neighborhood!

- What's important to you?
- What needs improvement?
- What do we need to preserve?

We know we can build stronger communities when residents are involved from the very beginning. That's why we're meeting people where they live, work and play to get their thoughts on what **their community should look like in the future.**

Planning Process

**WE
ARE
HERE**

PHASE 1:	October – December 2019	Community Conversations
	February 2020	Planning Commission & City Council Briefings
PHASE 2:	March 2020 – April 2021	Planning & Community Engagement
	January – April 2021	Draft Plan Review; Public Hearings

The plans governing Mount Vernon Avenue in the Arlandria and Del Ray neighborhoods were approved in 2003 and 2005.

Thank you for being here this evening!

Tonight:

1. We will ask you to respond to a quick questionnaire.
2. In small groups, you will identify issues of importance in YOUR neighborhood. Each group has a facilitator who will take notes.
3. We will learn from you: how can we best keep you informed and active in the process?

Your feedback is important in developing the framework for the overall planning process.

Now, let's talk about your neighborhood!

Join us for a Community Conversation
